

## FEATURES

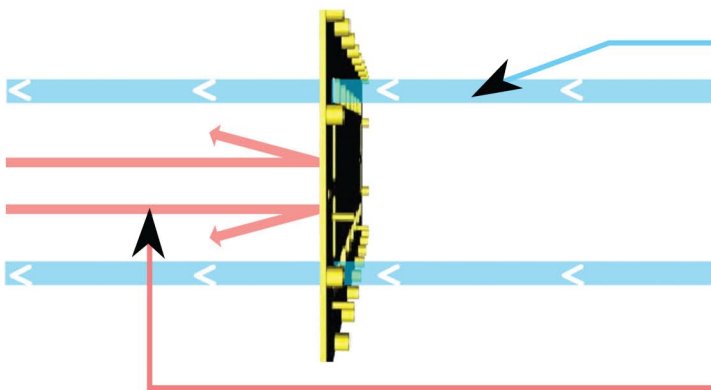

### Mounting Holes:

Pre-placed holes allow for standard sheet rock/wood screws

### Locator Pins:

Quickly align part to pre-cut ventilation holes in floor

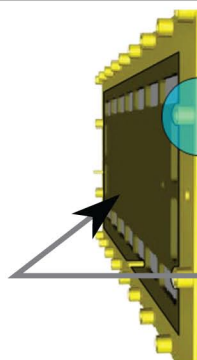

### Air Flow:

Vent holes allow conditioned air into the room during construction

### Debris Prevention:

Stops particles and objects up to 600 lbs. from entering vent hole.

*NOTE: Foam filter backing not shown stops small particles from entering duct work.*

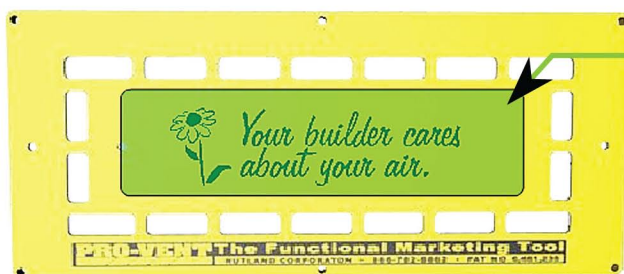

### Rigid Design:

High strength plastic with reinforced mount points and sturdy construction

### Foam Filter:

Reusable, durable, washable foam filter and Pro-Vent parts last through multiple uses

### Customize:

Customized image area for logo or message placement
